## OBJECTIVE

A knowledgeable and proficient software developer aiming to contribute expertise in MERN stack, and PERN Stack. Bringing a strong dedication to collaborative problem-solving, sophisticated design, and product quality. Looking forward to utilizing my skills to a suitable position to add value to the company.

## EDUCATION

Bachelor of Science in Software Engineering

August 2015 – Present

## SKILLS

Sadasdsa, Asdasd

## WORK EXPERIENCE

Software Developer

September 2018 – Present

- Developed efficient and maintainable codes using MERN {MongoDB, EXPRESS, React and NodeJS} stack technologies.
- Collaborated with the team to design and develop applications using PERN {PostgreSQL, Express, React, and Node.js} stack.
- Improved functionality of existing customer web interfaces, providing a more intuitive and dynamic user experience.

## PROJECTS

Project 1

(A brief description of the project, detailing what you did and what technologies you used.)

Project 2

(A brief description of the project, outlining your responsibilities and what skills were utilized.)

## REFERENCES

Available upon request.

NOTE: The above fictitious details are just to provide a layout of a professional resume for a software developer. The skills, experiences, and education need to be filled with the desired candidate's true information. The 'Projects' portion should contain detailed descriptions of past projects. Please remember to maintain honesty in a resume, as it allows employers to truly assess your abilities.
